BEFORE YOU START

How to use this plan

What toning really is

Toning is two things: a little more muscle and a little less fat. This plan builds the muscle; daily walks and the habits on page 5 help with the rest.

Your week

Train three days a week with a rest day in between, for example Monday, Wednesday, Friday. Do Workout A, then B, then C. On the other days, walk: 7,000 to 8,000 steps.

Pick the right weight

Choose a weight you can lift for every rep with good form, with two reps left "in the tank". Most women start with 2 to 5 kg. Rest 60 to 90 seconds between sets.

Warm-up (5 minutes)

- March on the spot, 1 minute
- Arm circles, 30 seconds each way
- Hip circles, 30 seconds each way
- Bodyweight squats x 10
- Glute bridges x 10
- Cat-cow x 6

Cool-down (5 minutes)

- Slow walk, 2 minutes
- Hamstring stretch, 30 seconds each leg
- Hip flexor stretch, 30 seconds each side
- Chest stretch in a doorway, 30 seconds
- Child's pose, 30 seconds

Safety first

Check with your doctor before you start, especially if you are pregnant or have a medical condition or injury. Stop if anything hurts (effort is fine, pain is not).

THE WORKOUTS

A, B and C

WORKOUT A · GLUTES AND LEGS

EXERCISE	SETS X REPS	EASIER OPTION
Hip thrust	3 x 12	Glute bridge on the floor
Romanian deadlift	3 x 10	No weight, hands on thighs
Sumo squat	3 x 12	Squat to a chair
Reverse lunge	3 x 8 each side	Hold a wall or chair
Side-lying leg raise	2 x 15 each side	Smaller range

WORKOUT B · ARMS AND SHOULDERS

EXERCISE	SETS X REPS	EASIER OPTION
Incline push-up	3 x 8	Hands on a wall
Bent-over row	3 x 12	Lighter weight
Biceps curl	3 x 12	One arm at a time
Overhead triceps press	3 x 12	Seated
Lateral raise	2 x 12	Bend the elbows

WORKOUT C · CORE AND POSTURE

EXERCISE	SETS X REPS	EASIER OPTION
Dead bug	3 x 8 each side	Move only the legs
Plank	3 x 25 seconds	Knees down
Side plank	2 x 20 seconds each side	Knees down
Glute bridge hold	3 x 30 seconds	Shorter hold
Bird dog	2 x 8 each side	Arms only, then legs only

WEEK BY WEEK

Build a little each week

Week 1 · Learn the moves

Do 2 sets of each exercise instead of 3. Move slowly and feel the muscle you are training. Take a photo and write down your weights.

Week 2 · Add a set

Do the full 3 sets with the same weights. You should still have about two reps left at the end of each set.

Week 3 · Slow the lowering

Take 3 seconds to lower on every rep. It is the quickest way to make the same weight work harder.

Week 4 · Add weight or reps

If the last set felt easy, go up one step in weight or add 2 reps. On your last day, take another photo in the same light and compare.

TICK IT OFF

WEEK	WORKOUT A	WORKOUT B	WORKOUT C	STEPS ON REST DAYS
Week 1	☐	☐	☐	☐
Week 2	☐	☐	☐	☐
Week 3	☐	☐	☐	☐
Week 4	☐	☐	☐	☐

FOOD HABITS

Five habits that matter most

No strict diet. Keep eating the food you like, and build these habits one at a time.

1. Protein at every meal

Muscle is built from it. Dal, paneer, curd, eggs, chicken, fish, sprouts or tofu, a palm-sized portion each meal.

2. Half a plate of vegetables

At lunch and dinner. Any kind counts: poriyal, salad, sabzi, soup.

3. Water first

2 to 3 litres a day, more on training days and in the heat.

4. Sleep 7 hours

Muscle grows while you rest, and poor sleep makes cravings worse. Keep a regular bedtime.

5. Walk every day

7,000 to 8,000 steps. A 10-minute walk after meals is an easy start.

Go easy on

Sugary drinks, fried snacks most days, and large late-night meals. Not banned, just less often.
